If you would like to purchase anything, please contact the office.

Garden Update

This autumn, we will be giving our garden a complete revamp! This work is partly due to some drainage issues we need to address, but we are also taking the opportunity to make improvements to the garden as a whole, creating an even better outdoor space for the children to explore and enjoy.

During the work, the main garden will unfortunately be unavailable for children to use. However, the children will continue to have access to our Bear Garden, and we will also make the most of our wonderful local area and outdoor spaces for walks, adventures and opportunities to explore nature. We appreciate your patience while the work takes place and are very excited about the fantastic outdoor space the children will have to enjoy when it is complete!

Helping Little Teeth Stay Healthy

Here are a few simple tips to help keep your child's teeth healthy

- Brush twice a day with fluoride toothpaste.
- Under 3s: use a smear.
- 3 years+: use a pea-sized amount.
- Brush for 2 minutes, covering all tooth surfaces.
- Spit, don't rinse — this keeps the fluoride working.
- A standard family or adult fluoride toothpaste is suitable; there's no need for a special children's toothpaste.

HOME LEARNING

Enjoy exploring autumn together! 🍁

Go on a walk, collect leaves and conkers, and talk about their colours, shapes and textures. Count and sort what you find, create pictures with leaves, and share autumn stories.

Most importantly, talk, explore and have fun together – everyday conversations are a wonderful way to support your child's learning.
